We are excited to introduce our New Dolphin (4-5-year-old) classroom upstairs. This classroom will allow us to continue our individual teaching practice and preparing our preschoolers for kindergarten.

Congratulations to our facility for getting a 3-star in our QRIS rating. This is a huge step towards our goals of becoming a high quality preschool. With this program we've seen a 15-20% increase in wages in order to keep our highly qualified teachers consistent. In order to continue on our path to accreditation we are having to increase tuition rates again. Please look out for a tuition rate increase with the upcoming school year in September. These increases keep our rates in line with what other 3-star centers are charging currently.
