SEED BOMB POPS

Materials Needed:

- Paper, Water, Seeds, Popsicle Sticks, Blender, Silicone Molds (optional)

Instructions:

- Cut squares approximately 1" in size of three different colored construction paper.
- Soak your squares of paper in water for a few hours or overnight.
- Once your paper has soaked in the water use a blender or food processor to create a pulp. I also found that it blends better if you add more water to the mixture.
- When the paper is pulp that can be formed squeeze most of the excess water out and add your seeds.
